THINGS  
TO  
KNOW

KRISTIN TOUSSAINT, REPORTER

2019 has just begun, but New York City has already seen its first bicyclist death of the year. The news of the 26-year-old's death in Brooklyn came on the heels of officials announcing that traffic fatalities had dropped to a record low in 2018. Now, transit activists are calling for more improvements, like protected bike lanes, to make New York City streets safer. Even if you don't bike around the five boroughs (as I do), these changes matter, activists say, because they'd make the streets safer for pedestrians, too. **Read more about what could improve city streets on page 4 and at metro.us.**

WELCOME TO  
METRO.USKIM AND KANYE  
EXPECTING FOURTH CHILD

**I** Kim Kardashian and Kanye West are expecting a fourth child — again using a surrogate, according to multiple media reports on Wednesday. Celebrity magazines *Us Weekly* and *People* quoted sources close to the couple as saying the surrogate was pregnant and expected to give birth in May. Representatives of the reality TV star and her rapper husband did not respond to a request for comment. Kardashian and West's third child, Chicago, was born via a surrogate in January 2018. The couple has two other

children, North, 5, and Saint, 3. They turned to surrogacy after doctors warned Kardashian of serious health risks if she became pregnant again after her first two children. *Us Weekly* reported that the couple put their plans for a fourth child on hold about six months ago as West was struggling with mental health issues. The rapper said last year he suffers from bipolar disorder and embarked on a bizarre Twitter spree that culminated in a rambling October meeting at the White House with President Donald Trump, whom West supports.

'I WON': TRUMP REBUFFS  
ROMNEY CRITICISM

**2** President Donald Trump rebuffed sharp criticism from fellow Republican Mitt Romney on Wednesday, heaping scorn on the incoming senator in a sign of tensions to come in Washington even before a new Congress is officially sworn in. Romney, who starts work on Thursday when members of the 2019-20 Congress take office, suggested in a newspaper essay published on Tuesday that Trump had "caused dismay around the world" and said his presidency had "made a deep descent in December." "On balance,

his conduct over the past two years ... is evidence that the president has not risen to the mantle of the office," said Romney in the *Washington Post* essay, reprising a strong critique of Trump that he voiced during the 2016 presidential campaign. Trump responded with a tweet on Wednesday, noting Romney's failed 2012 White House bid and also taking a shot at former Republican Sen. Jeff Flake, who has just retired from Congress and who has been one of the few Republican lawmakers to be openly critical of the president.

'SANCTIONS ARE COMING'  
DURING CABINET MEETING

**3** President Donald Trump leads a meeting of his cabinet, including acting Interior Secretary David Bernhardt (L) and acting Defense Secretary Patrick Shanahan, in the Cabinet Room at the White House on Wednesday. A partial federal government shutdown entered its 12th day as Trump and House Democrats are at an impasse over funding for border security, including the president's demand for \$5 billion for a wall along the U.S.-Mexico border.

CAPTAIN AND TENNILLE'S  
DARYL DRAGON DIES AT 76

**4** Singer and pianist Daryl Dragon, best known as "The Captain" of 1970s soft-rock duo Captain and Tennille, has died at the age of 76, his publicist said on Wednesday. Dragon died of kidney failure in Prescott, Arizona, on Wednesday, publicist Harlan Boll said in a statement. Captain and Tennille were best known for their Grammy-winning 1974 hit song "Love Will Keep Us Together," as well as the hits "Muskrat Love" in 1976 and "Do That to Me One More Time" in 1980. They also hosted their own television variety series from 1976 to 1977.

Toni Tennille, who married Dragon in 1975, was with him when he died. "He was a brilliant musician with many friends who loved him greatly. I was at my most creative in my life when I was with him," Tennille said in a statement. The couple divorced in 2014 but remained friends. Tennille said in a 2010 blog post that Dragon was suffering from an unspecified neurological condition that gave him hand tremors, seriously affecting his ability to play keyboards. Dragon said in 2017 that his problems were a result of medication and that he was better.

PULISIC JOINS CHELSEA AS  
MOST EXPENSIVE US PLAYER

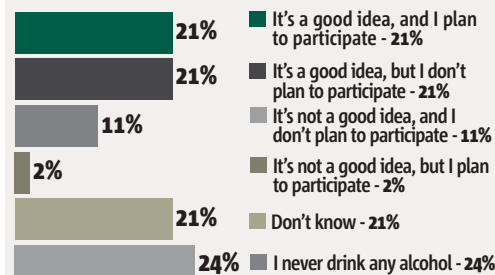

**5** Chelsea confirmed the signing of U.S. international winger Christian Pulisic from Borussia Dortmund on Wednesday, making the highly talented 20-year-old the most expensive American soccer player in history. Chelsea did not provide financial details but Dortmund said the London side had paid 64 million euros (\$73.2 million) for the versatile attacker, who British media reported was also sought by Premier League leaders Liverpool. *Forbes* reported that the fee for Pulisic is over three times higher than the 20 million euros that German side Wolfsburg

paid Hertha Berlin for U.S. international John Brooks in 2017. "It's a privilege to have signed for such a legendary club and I look forward to working hard toward being a contributor to their team of world-class players," Pulisic, who will spend the rest of the season on loan at Dortmund, said in a statement. "Looking forward to working with Maurizio Sarri and his technical team." Chelsea added that the youngster from Hershey, Pennsylvania, had signed a five-and-a-half-year contract to become the third American recruit in their history after Matt Miazga and Roy Wegerle.

# First bicyclist death of 2019 prompts calls for safer New York City streets

Traffic fatalities dropped to a record low in 2018, but transportation activists are calling for more action.

KRISTIN TOUSSAINT  
kristin.toussaint@metro.us

In 2018, the number of traffic fatalities throughout the five boroughs dropped to the lowest numbers recorded in the last century, but with the first bicyclist death already on the record for 2019, transportation activists are calling for officials to do even more to make New York City streets safer.

A 26-year-old bicyclist was killed on Third Avenue in Brooklyn Tuesday morning, according to the NYPD, after he was

doored by a parked car, falling off his bike and into traffic.

Transportation Alternatives (TransAlt), a non-profit that advocates for bicycling, walking and public transit in New York City, says this death was avoidable.

"The lower traffic fatalities in 2018 [are] certainly encouraging, but the reason why this certainly could be prevented is that there was no protected bike lane where this 26-year-old was riding," said Marco Conner, deputy director of TransAlt. "The city is throwing paint on the street and calling it a [protected] bike lane, which completely fails to protect a vulnerable bicyclist who is forced to share space with 5,000 pounds of steel moving at lethal speeds."

NYC Department of Transportation built more than 20 miles of

GETTY IMAGES

protected bike lanes in 2018, Mayor Bill de Blasio announced in December. These on-street protected lanes have expanded the city's bike network, already the largest in the nation, to a total of 1,217 miles, officials say.

But Conner says not all of those miles are actual "protected bike lanes"

with a physical barrier between cyclists and cars. StreetsBlog echoed this in its own analysis, concluding that in 2018, DOT built just 16 miles of bike lanes where there was a physical barrier separating cars and cyclists.

According to a representative, DOT defines a protected bike lane as

"a path intended for the use of bicycles that is physically separated from motorized vehicle traffic by an open space, vertical delineation, or barrier." When counting the mileage of New York City protected bike lanes, DOT said, each corridor is split up by block.

To transit activists,

this is not enough to make New York City streets safe.

"It's not just important for bicyclists. Protected bike lanes make streets safer for pedestrians and motorists as well," Conner said.

Though traffic deaths decreased overall in 2018, more pedestrians and motorcyclists died in crashes last year than in 2017. Pedestrian deaths went up from 107 to 114 in 2018, and motorcyclist deaths increased from 33 to 39.

Conner commended the progress, but said traffic injuries haven't dropped in the same way as fatalities, showing a threat to safety on New York City streets.

According to DOT, pedestrian and cyclist injury data shows a stable trend, and "severe" traffic injuries are not separated from "minor" injuries in the available statistics.

# No sign of progress after Trump meets lawmakers on shutdown

"It could be a long time," Trump told reporters.

Democratic and Republican congressional leaders emerged from a meeting with President Donald Trump on Wednesday giving no indication of any progress toward ending a partial government shutdown in its 12th day as Trump held fast to his demand for \$5 billion in funding for a border wall.

House Republican Leader Kevin McCarthy told reporters that Trump asked congressional leaders to return to the White House on Friday for more talks aimed at ending the shutdown.

Democrats said they would proceed with plans to hold votes on Thursday, when they formally take control of the House of Representatives from

President Donald Trump leads a meeting of his cabinet at the White House.

GETTY IMAGES

Trump's fellow Republicans, on legislation that would end the shutdown without providing the wall money sought by Trump. The White House has called the two-part package a "non-starter."

"We're asking the president to open up govern-

ment," Democrat Nancy Pelosi, the presumptive incoming House speaker, told reporters outside the White House after top lawmakers met with Trump and his homeland security officials behind closed doors.

Trump's demand for

\$5 billion in funding for a wall along the U.S.-Mexico border triggered the shutdown affecting about a quarter of the federal government and 800,000 federal workers. Before meeting with lawmakers, Trump said the shutdown would last for "as long as

it takes" as he pushes for wall money — fiercely opposed by Democrats — as part of any legislation to reopen agencies shuttered when their funding lapsed on Dec. 22.

"It could be a long time," Trump told reporters during a cabinet meeting, "or it could be quickly."

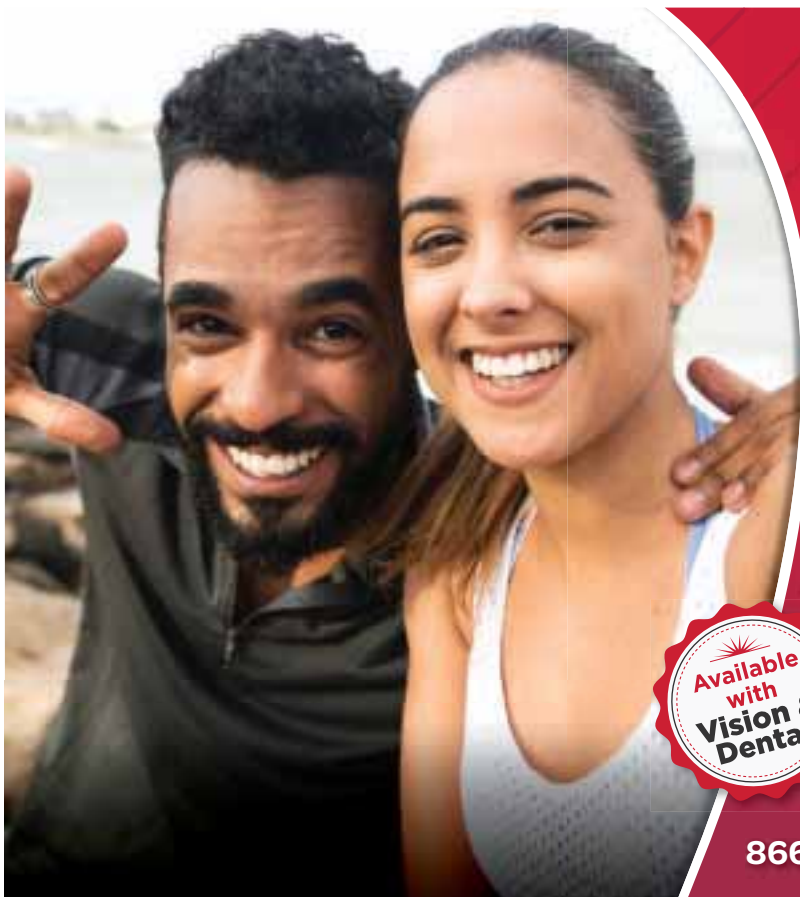

"We know that we have a challenge along the border," McCarthy said. "We want to solve that issue. We want to make sure we open this government up. And I think at the end of the day, the president, listening to him, he wants to solve this as well."

Pelosi noted that the legislation being presented in the House had previously won backing in the Senate, which will remain in Republican hands in the new 2019-2020 Congress that convenes on Thursday.

Trump made the border wall a key part of his presidential campaign. Before meeting with the Democrats, Trump called the border a "sieve," rebutted Pelosi's complaint that a wall was immoral, provided an estimate of the U.S. illegal immigrant population far higher than the figures most experts cite and made disputed comments about progress toward building a wall.

The visit by Pelosi and Democratic Senate leader Chuck Schumer was their first to the White House since their sharp exchange with Trump in the Oval Office on Dec. 11, during which the president told them he would be "proud to shut down the government for border security."

He has since blamed Democrats for the shutdown. REUTERS

# The Powerful ( and little known) Back Pain Treatment Used By Smart New Yorkers Who Don't Want Back Surgery or Opioid Drugs

**NEW YORK CITY** - A major back pain relief opportunity is at hand. But if you are interested, you must act quickly.

**Here is why:** Back pain ruins lives... and puzzles doctors.

You go through so many exams and tests... and treatments... and only end up suffering and frustrated.

And everyone is quick to say they have the "new breakthrough solution."

Am I right?

Well, the fact of the matter is... treating back pain is difficult. But advances in modern medical science and technology have created a treatment that has gotten great results with countless back pain sufferers who had tried everything else. Many had given up hope.

**This treatment is called:**

"Radiofrequency Neurotomy." RF for short. And here's how it works...

RF is a procedure that is based on the theory that blocking the nerve supply to the painful area may alleviate pain and restore function.

There are many nerves around your back or neck and one of their jobs is to sense PAIN.

Radiofrequency waves delivered to these nerves under advanced precision medical imaging to target the damaged areas... done right in their own clinic without intimidating, expensive hospitals or surgical centers ... to "block" the painful nerve flow.

**Two steps in the formula are performed.** First, a test or diagnostic "Block" procedure is done to determine if the procedure is going to decrease pain and improve function. If this first "test" procedure is successful, RF Neurotomy or "Radiofrequency" will be performed for longer term relief. NOT just the Treatment alone that's the key ingredient.

*You see, the real secret is the formula.* And that again starts with a proper screening evaluation to determine if you are a good candidate and may achieve the results you are looking forward to. This is always Step number one.

**And the best part about this screening is... It's FREE**

## FREE screening available for powerful back pain treatment

This screening will give you so much relief just knowing what is going on... and what your best options are.

That's right. *NYC Pain MD* offers this first step screening at no cost to patients. The only problem is... they often get over 100 inquiries a day as they also treat almost every painful area and joint. Sometimes it's hard to get through. If you don't get through to someone when you call... keep calling... or leave a message... it will be well worth it.

### But that's just the first step

After your free screening, if you qualify, the doctors will discuss the best treatment plan for you in a way that you will understand completely. Not all complex "doctor talk"...

This may be one... or a combination of the advanced medical treatments offered at *NYC Pain MD*.

Everything will be explained and all your questions will be answered. And even better:

You will be given all this At NO COST. *NYC Pain MD* doc's are not like used car salesman. They will not be giving you a sales pitch. They are doctors and will give you the best possible options to help your pain and offer to help you the best way they can. In fact, with up to 100 inquiries a day from patient's looking for relief, it's often hard to even get a treatment spot.

**You should also know this:** While *NYC Pain MD* cannot help everyone...

so many have gotten the pain relief they were looking for.

One of the reasons they offer those first step free screenings, is because it has opened the door to so many people to get help that they never would have otherwise.

At the very least, you will finally have some direction and a plan. And... whether you have the best, worst or no insurance at all, *NYC Pain MD* programs can be made affordable to everyone.

They do not want insurance issues... or not being rich or famous... to keep you away if you are suffering in pain.

### How To Schedule Your Risk-Free No-Obligation Screening Evaluation

There is a whole lot more I could say about their treatments etc... but this space is limited and that's best left for you and the doctors to discuss in person.

So... if you are even remotely interested ... take the first step and give them a call at **877-245-9252** and ask for your free screening.

One more thing... We often get over 100 calls in a single day. For that reason, if when you call you do not get a live scheduling coordinator, make sure to leave your name, number and time of your call on our voicemail. They will get back to you as soon as possible. Again, the number to call is **877-245-9252**. More info at: [painmdny.com/back-pain](http://painmdny.com/back-pain)

HUDSON RIVER PARK TRUST

## Hudson River Park to transform even more in 2019

Here's a look at some changes coming to Hudson River Park, the nation's longest riverfront park.

KRISTIN TOUSSAINT  
kristin.toussaint@metro.us

In the past 20 years, Hudson River Park has undergone a transformation, but it's not finished just yet.

What was once parking lots, decaying piers and plans for an interstate highway alongside the Manhattan waterfront has turned into 550 acres of public space for New Yorkers and an estuarine sanctuary meant to protect the 400 acres of water within the park's boundaries.

While Hudson River Park Trust, which was created to design, build and maintain the park, had a busy 2018, the new year is expected to bring even more to the waterfront, said Noreen Doyle, Trust executive vice president.

In 2019, the Trust will be busy working on Pier 26 in Tribeca. Though it'll be the next public park for the Hudson River Park system to come online, it won't be open until 2020.

That pier will bring a wetland tidal pool for educational activities, two junior soccer fields, a forest canopy of indigenous trees and a playground meant to be both

fun and functional, as it will serve as a space to learn about endangered species.

"We are excited because Pier 26 brings both the public recreation and also environmental component of our mission together," Doyle said. "People will be able to actually get close to the water, learn about the organisms that live in it and how the Hudson River influences our lives as a city and is important for the habitat

**"People will be able to actually get close to the water, learn about the organisms that live in it and how the Hudson River influences our lives as a city and is important for the habitat that lives there."**

Noreen Doyle,  
Trust Exec. VP

that lives there."

Hudson River Park wants to be the site of more scientific initiatives, according to Doyle. The Trust hopes to expand on a pilot project that began in 2018 called Environmental DNA, or "eDNA."

"Believe it or not, it's possible to look at water samples and study them to look at what kind of fish moved through [the area]," said Doyle. "We're

partnering with research institutions that can help us look at how to do this in a methodical way."

The park will also expand its plastics initiative, meant to reduce the amount of both microplastics and macroplastics polluting the environment. In 2018, the Trust removed about 1,000 pounds of macroplastics from the park.

"It's to try to deal with what's really the 21st-century scourge on the global environment," said Doyle. "And we are going to continue to do more education to expand our composting initiatives ... to keep the park more and more beautiful every year."

The Trust is also in the beginning stages of designing two new sections of Hudson River Park. These sections, not yet designated as "public park," will be turned into community space for the first time: Pier 97 at 57th Street and the Gansevoort Peninsula, opposite the Meatpacking District.

Construction will also continue on Pier 55, a project that will "revitalize" part of Hudson River Park with almost three acres of new park space. Pier 55 is slated to open in Spring 2021 and promises to be an "iconic new landmark" with a waterfront amphitheater and public art installations alongside more than 100 species of trees.

# \*\*\*Important Knee Arthritis Pain Alert\*\*\*

## Study Shows Simple Treatment Helps Avoid Knee Replacement Surgery For 75% Of Worst Cases At Least 7.3 Years...

**Free Screenings Offered At NYC Medical Clinic To See If You Qualify For This Proven And Effective Treatment. \*Spots Are Limited Due To High Demand**

NYC - What would it be worth to you if... in just 60 minutes... you could finally discover a way to get relief for your knee arthritis pain?

And...

How would it feel if you could wake up tomorrow morning and some... or even all your pain was gone?

And...

**Wouldn't it be wonderful to start a brand new life and leave all your pain and suffering behind?**

A life where...

...you jump out of bed in the morning, well rested and ready to take on the new day, without pain...

...you don't have to take slow, limping laps around your bedroom just to be able to walk every morning...

...you can go for walks, go up and down stairs and maybe even play sports like tennis and golf again...

...you can finally do all the things and enjoy life (just like everyone else) without constant, nagging pain...

Well... that's exactly what can possibly happen to you if you spend just 60 minutes with us...

*...Because that's all it will take for one of our expert doctors to show you what we believe to be the safest, and most effective knee arthritis pain treatment there is...*

I know you may find this hard to believe. Just about every one does when we tell them about this... at first.

But it doesn't take long for them to turn from skeptic to raving fan as soon as their pain improves so fast.

### Do You Have An Open Mind?

So, I'm not asking you to believe me just yet. All I ask is you approach this and read the rest of this information with an open mind. If you give us a chance, we promise, you won't be disappointed...

### Because There is Proof Real medical proof.

Here it is. A leading Orthopedic Surgeon and knee pain expert was getting excellent results with this non-surgical treatment on his own patients. In fact, this study involved almost 2000 patients followed over 10 years.

And more specifically, he was getting amazing results the way HE was doing this treatment using high tech imaging for precise technique... just like we do it...

And he wanted to prove... beyond a shadow of a doubt... the results he got... were not only REAL... they could most likely work for others just like you.

So he conducted some research, an 11 year project, and is was published in the "Journal of Knee Surgery"... a Real and REPUTABLE medical journal (A copy of this research is available on our website or by mail)

### What were his results

#### and what do they mean for your pain?

In this study he found that 75% of the severe knee arthritis pain patients he treated... and were facing knee replacement surgery... did not need to have knee replacement surgery... and were still OK 7.3 years later!

### This is incredible news for you... and here's is why...

The patients in this study were Stage 4 knee arthritis. That's the most advanced and worst stage. These are the cases that are usually sent for knee replacement surgery.

These patients had also gone through the common medical treatments like pain and anti-inflammatory pills, physical therapy etc. and all that had failed.

So... these were the WORST cases of which every thing else had failed ... YET, after this treatment, 75% still did not need knee replacement even more than 7 years later.

**And it gets better.** The study only collected data up to that time. It is pretty safe to say that many may never need surgery.

**Bottom line:** This study clearly showed this treatment is safe and extremely effective even for even the worst cases.

So, even if you aren't one of the worst cases... imagine what it can do for you.

### What IS This Treatment And How Can You Find Out If It Can Help You?

As studied as this treatment is.... you may have an "Oh No!" reaction.

Why? Because there is a very good chance you have heard of it. You may have even given it a try... and NOT gotten good results.

That's because this treatment is actually pretty common now a days. But... and this is a very big BUT... there is a very specific way to apply this treatment (as done in the study) that makes it so successful. And many are NOT doing it this way.

So... please hear us out. This really might be the answer you are looking for. Ok... here is the treatment and the full scoop on why it works so well... when done THIS WAY.

The treatment is called "viscosupplementation." It is frequently called, "gel treatment." Or "joint oil".

In this treatment, a gel is painlessly injected directly into your arthritic joint. This lubricates the joint, reduces friction... and allows more movement without all the inflammation and "grinding" caused by arthritis.

This is like putting oil on a rusty hinge. Once the oil is applied, the hinge can move much better.

### But here is something you must know:

In that research project, all of the procedures were done with highly advanced imaging to guide the injections and make sure the gel got into the joint space area ultra-precisely.

This is EXTREMELY important... because... research also shows that injections done WITHOUT this imaging to guide them... can miss the joint space about one third of the time.

That means, in one third of the injections, the gel wasn't in the joint space and couldn't possibly work!!!

We feel this is why so many people have tried this treatment and DIDN'T get good results like in the patients in this research.

So, if you have already had this treatment and it didn't work... was it done with this advanced medical imaging?

If not... there is still hope.

In fact, there is a very good chance you can still get relief.

Here is why: NYC Pain MD is a medical clinic located at 65 Broadway Suite 1004 New York, NY 10006.

We have physicians who focus in this treatment... and we use the advanced imaging to make sure the treatments are extremely precise and get the best results possible.

In fact, we have a doctor trained at the University of Pennsylvania School of Medicine, Cornell University and even Harvard Medical School.

### We have the best... but we also make treatments VERY affordable

Just because we offer the best possible treatments and doctors... doesn't mean we

**Study shows this treatment was successful in 75% of knee arthritis pain sufferers... saving them from surgery for at least 7.3 years. Will it work for you? Find out for FREE**

are so expensive only rich people can get our wonderful treatments.

While treatments may be covered by Medicare and some insurances... we also offer pricing plans for as little as \$13.57 per week so patients can finally relieve their pain and try to avoid surgery.

We don't want lack of insurance or money to be the reason you continue suffering.

### Your Special Invitation...

If you have knee arthritis pain... and are even just a little interested in finding out what this treatment can do for you... we are inviting you to come in for a FREE screening appointment.

During this screening, you will get to talk to the doctor... ask questions... and find out if you qualify.

We will go over everything with you... and you will breathe a big sigh of relieve finally having real answers and a specific plan to possibly relieve your pain.

We will leave no stone unturned... and we will help you any way we can.

### Please understand this:

This treatment can possibly take away your pain...

**No matter how long you've been suffering.** It really doesn't matter. It may take a little more time if you've been suffering for years as opposed to a "new" case... but in the end... you can still get tremendous results...

**No matter how bad or helpless you THINK your case is.** Many of our patients thought their case was hopeless, too far gone, for anything to help them. Many of their previous doctors told them that. Well you're NOT. With this treatment... the way our expert doctors do it... there is always hope.

Most of our patients have told us we were their last resort. Last stop before packing it in and completely giving up and submitting to surgery. They soon found out that our treatments made it really easy to get relief... and, best of all...

### You Get To See If You Qualify For FREE

That's right. We want you to see EVERYTHING first hand and to *prove* to you... without a shadow of a doubt... we have the help for your knee pain that you are desperately wanting. And we want to do it without you spending a penny or risking anything to find out.

That's why we are offering you this free screening.

**So my big question for you is** – is the opportunity to wake up tomorrow morning... and every other morning for the rest of your life... with less pain... worth the 60 minutes it will take to be evaluated?

What else could you possibly do with that same 60 minutes that could have such a profound impact on the rest of you and your family's lives?

You know, it's really disappointing to me that so many people just go on living with pain when you don't have to. So many of patients tell us how they used to be in pain... just about every day.

They were in so much pain... they were grumpy and miserable all the time. They hated work. They're relationships were strained. Life was just one big struggle. Now that they've discovered what we will reveal to you at your free screening... all that's changed...

Work and family have become rewarding and fun. Life is so much easier and better... in so many ways... without the pain. Finally, things start falling into place the way you always thought they would.

One of the best things or physicians and staff hear is "Hey doc since starting this program I've lost 17 pounds because now that I can finally move around pain-free the weight just keeps coming off!"

Which one of those amazing things I just mentioned would you like to happen to you... right now.

Maybe it's none of the things I've mentioned. But, you do have hopes and dreams. We all do. And pain robs you of

the opportunity to live out those hopes and dreams. Robs you of the life you really and desperately want... and deserve.

Whatever YOUR personal hopes and dreams are... They are all possible if you take action... right now.

All you have to do is give this a chance and schedule for the screening. But then again...

What's also possible is that your pain starts getting worse. And that happens to so many people from just doing nothing.

Taking action may seem like a little work... or... it may even be a little scary for you – but not taking actions is almost always worse. The eight most dangerous words to your future, your health, and your hopes and dreams just may be...

### It Will Just Get Better All By Itself!

Fact is... it may only get worse.

### Here Is How To Get Your Free Screening...

Just call us at 1-877-380-8537 and tell the scheduling coordinator you want your free screening. If you are one of the first 50, it is 100% free. No obligation or strings attached.

There is NOTHING to pay for and you will NOT be stressed in any way. We don't ever do that. You see, is not uncommon for us to get over 100 new patient calls in a single day. Most are from word of mouth. But we wanted to open up this opportunity to as many arthritis pain sufferers as possible.

But because we get so many calls... we can only take 50 from what you are reading this month.

You have absolutely zero to lose and possibly everything to gain. But due to high call volume, we suggest you call now. 1-877-380-8537.

# How to recycle your Christmas tree in NYC

NYC Sanitation begins its curbside collection of Christmas trees as Mulchfest provides more Christmas tree recycling opportunities.

KRISTIN TOUSSAINT  
kristin.toussaint@metro.us

With the holidays behind us, it's time to take down your tree, and luckily New York City makes Christmas tree recycling a breeze.

The New York City Department of Sanitation begins its annual curbside collection of Christmas trees this week, and you can leave your tree right on the curb for the city to take until Saturday, Jan. 12.

For the Christmas tree recycling program, or "tree-cycling" as the department calls it, you will need to remove all stands, tinsel, lights and

ALLISON MEIER/FUCKR CREATIVE COMMONS

ornaments, according to NYC Sanitation.

The clean, non-bagged naked Christmas trees will then be chipped, mixed with leaves and recycled into compost.

"While Christmas trees are in our homes for only a short period

of time, recycling can give them a longer life," NYC Sanitation Commissioner Kathryn Garcia said in a statement. "After collection, the trees are turned into compost to give life to plants in our city's parks and community gardens. We thank all

residents for taking part in the program."

If you're looking to get rid of an artificial Christmas tree, NYC Sanitation suggests selling or donating plastic and metal trees through donateNYC, or putting them with your recycling on regular re-

cycling days.

The Christmas tree recycling program doesn't follow a schedule, so you can put your real trees at the curb any day of the week.

After Christmas 2017, NYC Sanitation collected more than 200,000 Christmas trees

as part of its curbside pickup program.

New Yorkers can also get rid of their holiday trees at Mulchfest 2019. From Jan. 4-13, New Yorkers can bring their trees to 68 different drop-off sites like parks and GreenThumb gardens.

**"We encourage New Yorkers to bid their tree 'fir-well' at Mulchfest, making it a part of their holiday tradition."**

Mitchell J. Silver,  
NYC Parks  
Commissioner

Christmas trees brought to Mulchfest will need to be free of all lights, ornaments, decorations and netting as well.

On Jan. 12 and 13, the

More than 25,000 Christmas trees were recycled at last year's Mulchfest.

er Mitchell J. Silver in a statement. "By making greening a family activity, we all can help re-

duce waste, and protect and nourish other trees and plants across the city year-round."

More than 25,000 Christmas trees were recycled at last year's Mulchfest. Continue the Christmas tree recycling tradition by finding a drop-off site at [nycgovparks.org/highlights/festivals/mulchfest](http://nycgovparks.org/highlights/festivals/mulchfest).

# Leg Pain & Cramps While Walking?

Pain while walking or jogging can be a sign of Peripheral Artery Disease (PAD), which if left untreated can cause severe pain, numbness, impotence, non-healing sores... even amputation.

- ✓ Leg pain while walking that stops after few minutes at rest
- ✓ Leg numbness or weakness
- ✓ Foot or toe wounds that won't heal
- ✓ Skin discoloration or shiny skin on the leg
- ✓ One leg or foot is colder than the other
- ✓ Hair loss on your legs and feet

Smokers and people with diabetes or hypertension are more at risk for **PAD**.

# Wrestling world remembers 'Mean Gene' Okerlund

The longtime voice of the WWE passed away at age 76.

demise. Other representatives of Okerlund could not be reached for comment.

Dubbed "Mean Gene" by professional wrestler and interview subject Jesse "The Body" Ventura, Okerlund captivated a national audience with humor and sarcasm as he bantered with the biggest personalities on the world wrestling stage.

He debuted singing talent in the middle of his career when he sang the national anthem in 1985 at the first Wrestlemania, an annual star-studded wrestling competition.

Several professional wrestlers expressed their condolences on Twitter on Wednesday.

Hulk Hogan, one of the sport's best-known former champions, said on Twitter: "Mean Gene I love you my brother."

Hogan inducted Okerlund into the WWE Hall of Fame in 2006.

REUTERS

Professional wrestling announcer Gene Okerlund, nicknamed "Mean Gene" for his verbal sparring with the gimmicky sport's muscled gladiators including Hulk Hogan and "Macho Man" Randy Savage, died on Wednesday, World Wrestling Entertainment said. He was 76.

Okerlund launched his interviewing career at the American Wrestling Association in the 1970s and went on to work for the World Wrestling Federation, later renamed the WWE and World Championship Wrestling.

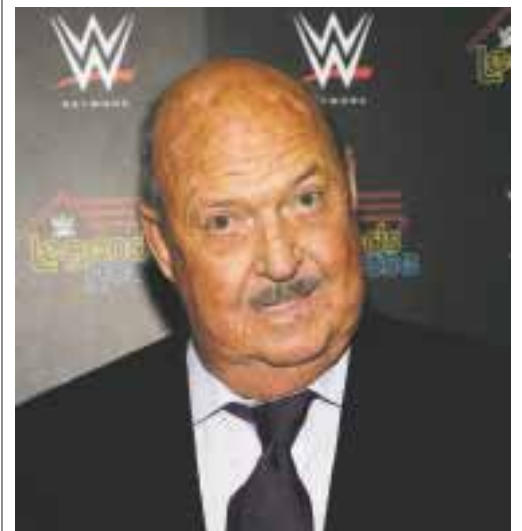

"WWE extends its condolences to Okerlund's family, friends and fans," the organization said on its website.

WWE officials did not respond immediately to queries over the circumstances of Okerlund's

# Filthy parks, closed museums: US government shutdown grinds on

As Ralph Snake walked across Washington's National Mall on Wednesday, he stopped every few feet to pick up some of the litter that has accumulated in the once-tidy expanse of grass since a budget showdown partially closed the federal government nearly two weeks ago.

"I decided to clean up this one section, because that's what Americans will do," said Snake, a 64-year-old member of the indigenous Ho-Chunk Nation in Wisconsin.

Snake came to the U.S. capital to witness Sharice Davids get sworn in as one of the first two women of Native American descent to become members of Congress. "Just because this thing is shut down, our hearts aren't shut down," he added.

The partial shutdown, which has cut off many government services, entered its 12th day on Wednesday with no end in sight. It stems from an impasse between congressional Democrats, who control the House of Representatives as of Thursday, and President Donald Trump, who is demanding \$5.6 billion in funding for a border wall.

National parks have closed campgrounds out of fear that toilets will overflow with human waste. Hundreds of thousands of federal employees are working without pay. The immigration court system, already suffocating under a massive backlog, is largely shuttered.

The prospects for an end to the showdown remained unclear, even as congressional leaders visited the White House on

Wednesday.

In Washington, the 17 museums run by the Smithsonian as well as the National Zoo closed their doors on Wednesday after running out of emergency funding, leaving tourists frustrated with politicians of all stripes.

"It's stupid," said Laura Vanbragt, a 20-year-old student from Grand Rapids, Michigan. "There should just be more communication between the two, more give on both sides."

Outside the Bureau of Engraving and Printing, Clint Woods and his family stood in line waiting for a guided tour with other visitors who were locked out of more popular venues.

"It's like two squabbling children," Woods, 43, said of Trump and Democratic leaders in Congress. "They both think they're right, and they're dug in."

California's Joshua Tree National Park, about 130 miles east of Los Angeles, is among many national parks across the country that have curtailed operations. It closed some campgrounds on Wednesday because outdoor toilets, which cannot be emptied due to a lack of staffing, have reached capacity, creating a potential health hazard.

Victor Jerez, 53, spent the day hiking in Joshua Tree with his brother, his sister and their families, though they were disappointed to find the visitor center shut down.

"It would have been nice to have some trail maps and to get some recommendations from the staff," said Jerez, who was visiting from Europe,

where he splits his time between Barcelona and London.

## WORKING WITHOUT PAY

Unlike in some previous government shutdowns, many national parks have remained open, though without staff to collect trash and service restrooms. Advocates have voiced alarm that an ex-

tended shutdown could cause environmental damage.

"We're very concerned about the reports we're seeing of human waste in inappropriate places," said John Garder, senior director of budget and appropriations for the National Parks Conservation Association. "Trash is a serious concern for wildlife."

The impact of the shut-

down has reached the nation's 62 immigration courts as well. Hundreds of judges are on furlough, and only cases of immigrants in detention are being heard.

The Trump administration has expanded the system, which is run by the U.S. Department of Justice, aiming to cut down on the backlog of more than 800,000 cases, but

the shutdown will complicate that effort, said Ashley Tabaddor, the president of the national immigration judges' union.

"To reschedule these cases can take several years because the judges are all booked," she said.

A Justice Department spokesman said he could not respond to a request for comment because of the shutdown. **REUTERS**

##### MORE HONKING HORNS!

In addition to the Grumble about annoying car horns from the Dec. 19 Metro, I would like to add that what is even more annoying is the same person... every Sunday...at 11 a.m.

honking his horn for the same person who by now should know to be ready at 11 a.m. on Sunday morning!! This person annoyingly honks his horn

about four times, waking up the entire block just so he can pick up his family member. My neighbor asked him very nicely to please stop honking his horn

and to use a cellphone to call the family member rather than honk his horn so loudly on a peaceful Sunday morning, and he in turn yelled at her, "Go

back to sleep!!" I am begging my neighbor to please cut it out!!!

## Existing Conditions

Mixologist Dave Arnold finally has a new space to turn out his brand of molecular cocktails, with the help of cocktail librarian Greg Boehm and drinks guru Don Lee. The power trio's Existing Conditions opened last fall, as much science lab as bar crafting precision drinks. And right at the front of the menu are some of their proudest creations: non-alcoholic cocktails like the Horse & Carriage, a take on a spritz made with carbonated clarified Granny Smith apple, clarified carrot and Tasmanian pepper berry. 35 W. 8th St., [exconditions.com](#)

but boast health benefits like boosting metabolism and helping break down fat in the Skinny Shroom, made with sparkling buckwheat, shimeji mushroom shrub and quince honey. 45 Orchard St., Lower East Side, [receptionbar.nyc](#)

## Mother of Pearl

Ravi Derossi is on a one-man mission to save animals by hiring chefs to make amazing vegan food and cocktails at his New York restaurants

## Reception Bar

Beyond merely creating her own menu of soju-focused cocktails, Reception Bar owner Katie Rue also engineered some of her own equipment to make them. Paired with modern Korean bites, this bar looks like something out of "Mad Men" if the women had been in charge, and includes a menu of health-focused Elixirs that are not only booze-free,

and bars, so you might be ticking off two resolutions for the price of one with a visit to Mother of Pearl. This elevated tiki bar in Alphabet City arrived before all things Polynesian became one of 2018's biggest trends, but you don't have to be a rum-soaked pirate to enjoy it — mixologist Jane Danger has created a menu of non-alcoholic cocktails like the Pepper Keenan (pineapple, pome-

granate molasses, lime, bell pepper, jalapeño, agave). 95 Ave. A, [motherofpearlnyc.com](#)

## The Dead Rabbit

Besides twice being named World's Best Cocktail Bar, The Dead Rabbit is known for its thousands-deep whiskey list — when two Irish boys open a bar, they don't do it by halves. But the bartenders are just as happy to improvise anything you like off the menu, including alcohol-free drinks. Just give them an ingredient you like or a flavor profile, and they'll reach deep into their pantry for some rhubarb or Thai basil, with a dash of their housemade syrups and bitters. 30 Water St., Financial District, [deadrabbitnyc.com](#)

## Nitecap

All the intimacy of a speakeasy without the breathless hype — Nitecap is for the drinkers who know where to find skillfully mixed drinks with a low-key ambience. The menu ends with "booze-free delights" called Virginz that change every other season like this summer's OUTTASIGHT! (grapefruit cordial, guava, lemon, vanilla, tonic). And if you're not looking to go to totally dry, there's also a selection of creative spritzes. 51 Rivington St., Lower East Side, [nitecapnyc.com](#)

## 'The Lion King'

**Date: July 19**

Twenty-five years after its original premiere (in 1994), Simba's story returns to theaters with a live-action version featuring computer-generated animation. The new release is directed by Jon Favreau and written by Jeff Nathanson.

## 'Spider-Man'

**Date: July 5**

After the relaunch of the Spider-Man saga in 2017 with "Spider-Man: Homecoming" comes the sequel dubbed "Spider-Man: Far From Home," which will once again star young actor Tom Holland. In this new installment, the arachnid hero will face powerful villain Mysterio, played by Jake Gyllenhaal.

## 'Dumbo'

**Date: March 29**

After 78 years of appearing in theaters, the tender elephant Dumbo will return to the big screen with the live-action version directed by Tim Burton. The movie is an adaptation of Walt Disney's 1941 animated film and stars Colin Farrell, Eva Green, Michael Keaton, Danny DeVito and Alan Arkin.

## 'Aladdin'

**Date: May 24**

It is the live-action adaptation of Disney's 1992 animated film. "Aladdin" of 2019 is directed by Guy Ritchie based on a script written by John August, Ritchie and Vanessa Taylor. The story is based on the Arabian-style fairy tale of the same name from "One Thousand and One Nights" and will star Mena Massoud, Naomi Scott and Will Smith as the genie of the wonderful lamp.

## 'Terminator 6'

**Date: Nov. 1**

The never-ending saga about Skynet, John Connor, the Terminator T-800 and Sarah Connor will return to theaters with a sixth installment. Tim Miller's film is a direct sequel to "Terminator 2: The Last Judgment," and will feature historical protagonists Arnold Schwarzenegger and Linda Hamilton.

# 10 Most awaited films to watch in 2019

This year promises to be spectacular for film lovers. Metro highlights the most awaited movies of 2019.

## 'Star Wars: Episode IX'

Date: Dec. 20

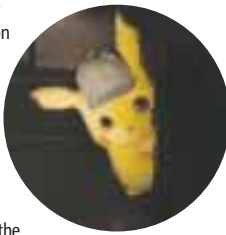

The ninth film in the "Star Wars" saga will be released in 2019, ending the third trilogy. The story was created by George Lucas and recently retaken by Disney. The film, directed by J.J. Abrams, of which the plot is not yet known, will star Daisy Ridley, Adam Driver, John Boyega, Oscar Isaac and Lupita Nyong'o.

## 'Pokémon: Detective Pikachu'

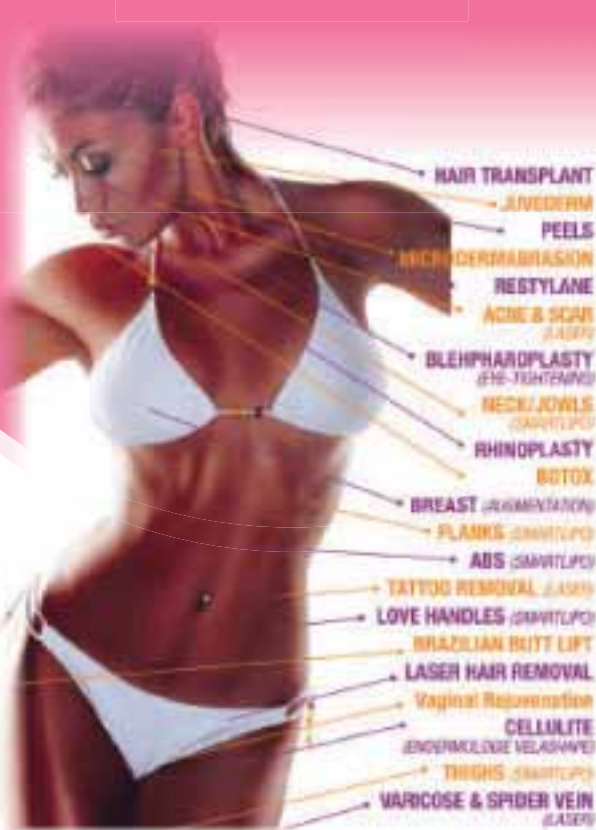

Date: May 30

The famous Pokémon video game will have its first live-action version in 2019 with "Pokémon: Detective Pikachu."

In it, the famous Pikachu will help a Pokémon master in the real world. The film will star Ryan Reynolds as the voice of Pikachu, and will see Justice Smith, Kathryn Newton and Ken Watanabe in live-action roles.

## THE RESULTS SPEAK FOR THEMSELVES!

## 'Captain Marvel'

Date: March 8

The movie based on the Carol Danvers/Captain Marvel character is Marvel Studios' female bet to compete with DC Comics' "Wonder Woman." The story of Carol Danvers, a U.S. Air Force pilot who becomes Captain Marvel after the Earth is caught in the middle of an intergalactic conflict between two alien races, will become the first Marvel Studios movie starring a woman in a leading role.

## 'Avengers 4'

Date: May 3

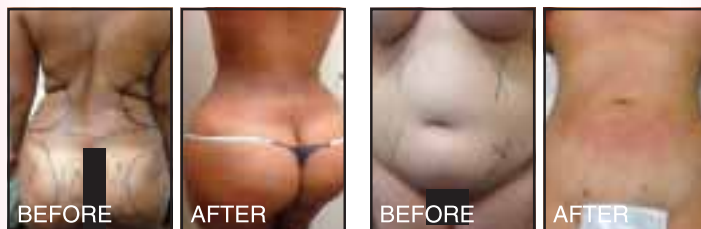

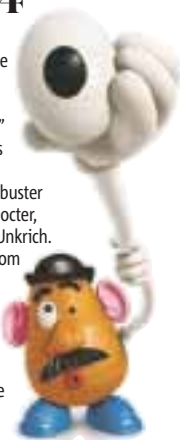

After "Avengers: Infinity War"'s amazing finale, we'll finally know what happened next to our favorite superheroes from the Marvel universe. Like its prequel, this film is directed by Anthony and Joe Russo and will feature dozens of characters from the Marvel universe, who were previously attacked by Thanos and the six Gems of Infinity.

## 'Toy Story 4'

Date: June 21

Twenty-four years after the premiere of "Toy Story" (1995), this year will see the arrival of "Toy Story 4." The idea of the movie was conceived by the editorial team of the original blockbuster film: John Lasseter, Pete Docter, Andrew Stanton and Lee Unkrich. Fan-favorite A-list actors Tom Hanks and Tim Allen will once again play their respective roles – Woody and Buzz Lightyear – in the film, which, according to Allen, will be one of the most emotional in the beloved Pixar saga.

The conclusion of the fan-favorite "Batman" prequel series is here.

ANDREW HUSBAND  
letters@metro.us

2019 has arrived, and so has the final season of "Gotham," the fan-favorite Batman prequel series.

When the previous season came to a close last May, the villainous Ra's al Ghul (Alexander Siddig), his League of Shadows and the Joker-esque Jeremiah Valeska (Cameron Monaghan) succeeded in setting off a series of bombs throughout Gotham. The result? The mayor's murder, the destruction of every bridge into the city and the marooning of James Gordon (Ben McKenzie) and his fellow police officers.

Season 5 will finally wrap up the show's many twists and turns and, by its end, give birth to Bruce Wayne's (David Mazouz) long-developing vigilante alter-ego, Batman.

It will also give in to fans' unwavering demands regarding the Valeska brothers, Jerome and Jeremiah, and which one will ultimately become Batman's iconic archnemesis, the Joker. Showrunner Bruno Heller and his team of writers have been toying with this for the past few seasons, and seeing as how one of season 5's episodes is titled "Ace Chemicals," chances are they will finally be gifting viewers with the creation of the Crown Prince of Crime himself.

Before any of this can come to pass, however, Gordon, Wayne, Harvey

Bullock (Donal Logue) and the rest of the Gotham cops who stayed behind must find a way to protect the city's trapped inhabitants from the rogues who roam the streets. These include the Penguin (Robin Lord Taylor), the Riddler (Cory Michael Smith), future Catwoman Selina Kyle (Camren Bicondova), Bane (Shane West) and a veritable who's who of the Batman rogues gallery.

The attack on Gotham led by Ra's al Ghul, the League of Shadows and Jeremiah has left the isolated city in shambles. Those left behind are now forced to grapple with what dwindling supplies remain and the various territories they can be found in. In a way, season 5 sounds a lot like the final act of Christopher Nolan's "The Dark Knight Rises."

As audiences who've been following season 1 already know, "Gotham" is a very different animal from any of the Batman films that have preceded (or followed) it. This is very much an elongated origin story, which initially began as a look into the early days of Detective James Gordon and his time with the Gotham Police Department before ultimately becoming its commissioner.

Soon after, Heller and company quickly realized that viewers were anxious to see what would become of young Bruce and expanded the show's horizons. Hence the "Gotham" fans have come to know and love for the past few seasons, and the Batman origin story it will finally be bringing to a close with season 5.

# Jets head coaching search gets underway

Jets interviewed Chiefs OC yesterday, will meet McCarthy, Kingsbury.

JOE PANTORNO  
joseph.pantorno@metro.us

The New York Jets waited a little over 24 hours after their season ended to fire head coach Todd Bowles after four seasons.

It was a decision that was seen coming from a mile away as Bowles led the Jets to a 4-12 record in 2018 on the heels of two straight 5-11 campaigns. It was a disappointing regression for a team that was expected to take a small step forward after drafting quarterback Sam Darnold while improving the defense with the likes of veteran cornerback Trumaine Johnson.

Instead, the Jets looked uninspired for most of the season under Bowles, which was once the former head

coach's most redeeming quality. Despite finishing six games under .500 last season, it was believed Bowles' relationship in the locker room was positive, which was a large reason as to why the Jets overachieved last year with veteran backup passer Josh McCown leading the offense.

Despite a 14-34 record over the past three years, the Jets job is still an attractive one for free-agent head coaches. And management is wasting no time in accruing candidates and interviews with some of the top available talents.

One thing is clear, though: The Jets look to be homed in on offense.

Per NFL.com's Ian Rapoport, the Jets met with Kansas City Chiefs offensive coordinator Eric Bieniemy on Wednesday. During his first year as a coordinator of an NFL team, Bieniemy has helped first-year starting quarterback Patrick Ma-

Kliff Kingsbury (left), Mike McCarthy (center) and Eric Bieniemy (right). REUTERS

homes and the Chiefs offense become one of the most explosive attacks in the league.

His offense ranks first in the NFL in total yards and points while Mahomes passed for over 5,000 yards and a league-leading 50 passing touchdowns.

That kind of output with a young quarter-

back obviously has the Jets dreaming of a scenario in which he can bring that kind of production to Darnold's game.

The Jets are also expected to interview former Green Bay Packers boss Mike McCarthy, per Rapoport, after he was fired following 13 years with the fran-

chise. With a Super Bowl win under his belt, McCarthy's 125 victories in Green Bay rank behind only the legendary Curly Lambeau.

But two straight losing seasons saw McCarthy axed before the 2018 season ended as a frayed relationship with star quarterback Aaron Rodgers saw the Packers crash and burn. Regardless of their issues, McCarthy is still the man responsible for helping Rodgers become an elite NFL quarterback.

Rounding out an early trio of interviewees is USC offensive coordinator Kliff Kingsbury, according to Charles Robinson of Yahoo Sports.

Kingsbury is regarded as one of the most creative offensive virtuosos in college football after working with the University of Houston and Texas A&M as a coordinator before leading Texas Tech for six seasons as head coach. He's helped develop the likes of Mahomes, Cleveland Browns quar-

terback Baker Mayfield, and Denver Broncos passer Case Keenum, which would only provide a wealth of knowledge to help Darnold reach new heights.

Why would they choose the Jets, though?

Not only does the job provide the promise of coaching in the largest sports market in the world near New York City, but the Jets will also have an abundance of money to spend this offseason to surround the promising Darnold with.

According to Sportrac.com, the Jets have \$106 million freed up to work with this winter. Only the Indianapolis Colts (\$122 million) have more.

That could mean that the Jets might make a serious run at free-agent running back Le'Veon Bell, considered one of the top two-way rushers in the NFL before an unceremonious split with the Pittsburgh Steelers that saw him sit out the entire 2018 season.
